STATE OF MICHIGAN
John Engler, Governor

DEPARTMENT OF TREASURY
Mark A. Murray, State Treasurer

April 27, 2001

The Honorable John Engler
Members of the Michigan Legislature
People of the State of Michigan

Award-winning fiscal management, a reduced tax burden for Michigan individuals and businesses, and the implementation of tax-filing innovations have made fiscal year 2000 a rewarding year for our state.

Last year, Michigan received third-party confirmation that the fiscal and economic policies of the past decade have renewed and invigorated the state. Wall Street rating agencies, Standard & Poor's (S&P) and Moody's, upgraded the state's credit rating to AAA—the highest available. Michigan had not been rated AAA by S&P since 1976 and never before by Moody's. The high rating will mean lower interest costs, allowing more dollars to go directly into work to be done.

In keeping with the state's prudent fiscal policy, several tax cuts continued their phase-in, further reducing the burden on Michigan individuals and businesses. The income tax rate continues to phase down to 3.9 percent from the 4.4 percent rate in 1999, and the single business tax rate remains on schedule to be eliminated through annual reductions of 0.1 percent per year. Additional immediate relief was also provided through increased property tax credits for senior citizens and disabled individuals, increased exemption amounts for dependent children, new exemptions for older children, and special exemptions for taxpayers providing over 50 percent of the financial support to their family members.

In addition to lower taxes, taxpayers found filing easier and refunding faster with the availability of electronic filing (e-file), filing by phone (TeleFile), two-dimensional (2-D) barcoding, and direct deposit. These automated methods cut data processing time, while reducing errors and adding convenience to the tax-filing process.

The successes of fiscal year 2000 would not have been possible without the hard work and commitment of the Michigan Legislature, Administration and all Treasury employees.

Sincerely,

Mark A. Murray
State Treasurer

About the Michigan Department of Treasury

The Michigan Constitution provides for the office of the State Treasurer in Article 5, Section 3. The Governor appoints the State Treasurer with the advice and consent of the Senate. Governor John Engler appointed Mark A. Murray as Michigan's 40th State Treasurer in January 1999.

Introduction

Responsibilities

Under the State Treasurer's direction, the Michigan Department of Treasury collects, invests, and disburses all State monies. The Department administers the major tax laws, which in fiscal year 2000 generated 96 percent of the total State tax collections.

The Department also administers property tax laws, safeguards the credit of the State and its local governments, audits county and municipal finance records, and holds unclaimed or abandoned property.

The Department provides support services to the Michigan Merit Award, Investment Advisory Committee, Michigan Education Trust, Michigan Higher Education Assistance Authority, Michigan Higher Education Facilities Authority, Michigan Higher Education Student Loan Authority, Michigan Municipal Bond Authority, Michigan State Hospital Finance Authority, State Assessors Board and State Tax Commission. While the State Treasurer serves as a member or chair of several of these boards and

authorities, by law each operates independently of the State Treasurer, and their members are appointed by the Governor or serve by virtue of their position in State government.

Administration

The Department is organized into an executive office and four areas of responsibility. During fiscal year 2000, departmental operating expenditures were \$170 million. At the close of fiscal year 2000, Treasury employed 1,428 full-time workers.

The main office of the Department is in downtown Lansing. Field offices are located throughout Michigan, many of which offer taxpayers local access to forms and information. These offices also provide a link to the main office for Treasury auditors and collectors who are assigned to Michigan's 83 counties. Treasury also maintains offices in California, Illinois, New Jersey, New York, Ohio and Texas for proximity to multi-state taxpayers doing business in Michigan.

Commissions, Boards and Authorities

Commissions, boards and authorities within Treasury:

Michigan Merit Award
Investment Advisory Committee
Michigan Education Trust
Michigan Higher Education Assistance Authority
Michigan Higher Education Facilities Authority
Michigan Higher Education Student Loan Authority
Michigan Municipal Bond Authority
Michigan State Hospital Finance Authority
State Assessors Board
State Tax Commission

The State Treasurer serves as investment fiduciary of the following:

Judges Retirement Fund
Public School Employees Retirement Fund
State Employees Retirement Fund
State Police Retirement Fund

The State Treasurer serves as treasurer of the:

Mackinac Bridge Authority
Michigan Judges Retirement System
Michigan Legislative Retirement System
Michigan Public School Employees Retirement System
Michigan State Employees Retirement System
Michigan State Police Retirement System

The State Treasurer sits as a board member of the following:

Michigan Education Trust, Chair
Michigan Merit Award Board, Chair
Michigan Municipal Bond Authority, Chair
Michigan School District Accountability Board, Chair
Local Emergency Financial Assistance Loan Board
Michigan Capitol Park Commission
Michigan Economic Development Corporation Corporate Board
Michigan Economic Growth Authority
Michigan Forest Finance Authority
Michigan Higher Education Assistance Authority
Michigan Higher Education Student Loan Authority
Michigan State Hospital Finance Authority
Michigan State Housing Development Authority
Michigan Strategic Fund
Michigan Underground Storage Tank Financial Assurance Authority
Retirement Boards:
Judges
State Employees
State Police
State Administrative Board

Fiscal Year 2000: The Year in Review

Credit Rating Upgraded to AAA

Wall Street rating agencies, Standard & Poor's (S&P) and Moody's, recently upgraded the State's credit rating to the highest rating possible, AAA. Michigan had not been rated AAA by S&P since 1976 and had never received the AAA rating from Moody's. Development and implementation of an effective financial management structure, continued strengthening of the State's budget stabilization fund (Rainy Day Fund) and School Aid Fund, unemployment rates below the national average, gains in economic diversification, and prudent tax cuts and realistic budgeting were all cited as reasons for the upgrade.

Customer Service Improvements

Making Filing Taxes Easier

Due to more self-help options through the automated Computerized Refund Information System, a provision on the individual income tax return to report use tax obligations and a host of paperless filing options, fiscal year 2000 was a year for easier filing. A record number of taxpayers chose the ease of paperless filing such as electronic filing (e-file) and TeleFile (via phone), received their refunds faster, and reduced the number of errors that commonly occur on paper returns.

In addition to easing the filing burden, Treasury focused on increasing taxpayer education and improving service by way of an informed and well-trained staff. Treasury's new automated audit system FARSTaR (Field Audit Research, Selection, Tracking and Reporting) uses technology to connect all auditors throughout Michigan into a central network, improving audit efficiencies and providing a less burdensome audit process for taxpayers. Also, a Web-based tax information and research service to support field staff was successfully deployed and implemented, saving \$23,000 over the previous paper-based, multi-volume system.

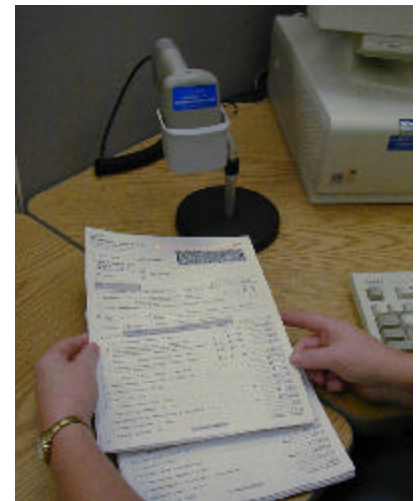

2-D Barcoding

Two-dimensional (2-D) barcoding is an innovation that will also increase speed and accuracy of tax filing. The 2-D barcodes are printed on computer-generated tax forms that make scanning 100 percent accurate, eliminating data entry errors which can delay processing of returns. This method allows quick access to taxpayer data by phone staff who can then immediately respond to tax preparer and taxpayer questions. Additionally, calculation errors are reduced because the tax preparation software does the computations. Processing costs associated with paper returns are reduced, saving taxpayer dollars.

Outreach

With the implementation of Treasury's new Outreach program, a series of 8 new seminars for small businesses was launched. Instruction was provided on State taxes at 18 Tax Schools put on by Michigan State University and the University of Michigan, and income tax preparation instructions were provided to volunteer preparers statewide. Income tax preparation videos were provided to libraries and volunteer tax preparation groups statewide, and training was provided to legislative staff, professional preparers and attorneys.

The Department is also working proactively with the business community to increase its knowledge of the new Dyed Diesel law.

2-D barcoded tax forms increase speed and accuracy of tax processing.

("Fiscal Year 2000" continued)

Putting the Emphasis on Education

Michigan Merit Award

More than 42,000 students from the class of 2000 earned Michigan Merit Awards. The \$2,500 scholarship is based on the Michigan Educational Assessment Program (MEAP) tests and can pay for postsecondary education costs such as tuition, books, computers and more. The Merit Award Program provides access to \$100 million in awards, making this Program one of the largest State-based merit scholarship programs in the nation.

Golden Apple

In its inaugural year, the "Golden Apple" awards provided nearly 200 elementary schools with at least \$50,000 for school improvements such as text books, computers, guest lecturers, or other innovations. The awards were based on the schools' performance on 4th and 5th grade MEAP tests.

Michigan Education Savings Program

The Michigan Education Savings Program (MESP) was rated one of the top five best college savings plans in the nation by *Money* magazine. This program provides an opportunity to pay for postsecondary education through savings rather than debt.

Sheridan Elementary School in Lansing receives a Golden Apple Award from Governor John Engler for performance on the Michigan Educational Assessment Program.

Parents, grandparents, relatives and friends can set up an account with as little as \$25, or \$15 through payroll deduction. While other states have similar plans, Michigan is unique by offering a State match for certain beneficiaries. Earnings grow federally tax deferred with income taxes eventually paid at the beneficiary's income tax rate, and there are no State income taxes on earnings used to pay for qualified higher education expenses. Account owners can receive an annual State income tax deduction of up to \$5,000 (\$10,000 for joint filers).

Michigan Education Trust

The Michigan Education Trust (MET) program established an extended 10-month open enrollment period. Additional processing conveniences include: early submissions to save on the processing fee, a one-step process allowing purchasers to complete their contracts on the MET Web site, addition of a 10-year option for monthly purchasers, payroll deduction for contributions, one booklet that includes contracts for each category of tuition benefits, and waiver of termination fee if beneficiaries terminate contracts for certain reasons.

Record Year for Unclaimed Property

Through increased public awareness, continued ease of conducting Web site searches, and membership with national unclaimed property associations, the Unclaimed Property Division approved over 20,000 claims in one year and returned over \$19 million to property owners.

Notable 1999-2000 Legislative Changes

Public Act 115 of 1999

Amends Single Business Tax Act and replaces capital acquisition deduction with an investment tax credit, set at a rate of .85% for all firms in Michigan.

Public Act 40 of 2000

Reduces 4.3% income tax rate by .1% annually until it reaches 3.9% in 2004 and remains at that rate.

Public Act 41 of 2000

Allows totally and permanently disabled or deaf persons to receive a property tax credit for 100% (up from 60%) of their property taxes in excess of 3.5% of their household income.

Public Act 42 of 2000

Expands exemption of dependent children to \$600 for children up to age 17.

Public Act 43 of 2000

Increases and expands definition of “dependent” to allow a special exemption for taxpayers who provide over 50% of the financial support to family members.

Public Act 145 of 2000

Expands Brownfield Redevelopment Financing Act by adding to eligible activities, allowing local tax capture for operating expenses, expanding definition of eligible property and extending program sunset to January 1, 2003.

Public Act 301 of 2000

Allows taxpayer to claim an \$1,800 exemption if 65 years of age or older. Allows an \$1,800 exemption if taxpayer is totally and permanently disabled, deaf, blind, hemiplegic, paraplegic, or quadriplegic. Taxpayer may also claim this exemption for his or her dependents who qualify for exemptions. An exemption may also be claimed if a taxpayer has unemployment compensation of 50% or more of his or her Federal adjusted gross income. Taxpayers eligible to be claimed as a dependent by someone else may now claim a \$1,500 personal exemption, a \$500 increase.

Public Act 393/394 of 2000

Allows taxpayers who claim the federal adoption credit to claim a refundable credit for up to \$1,200 on their Michigan income tax return for expenses in excess of the federal credit.

LANSING, MICHIGAN 48913
(517) 334-8050
FAX (517) 334-8079

THOMAS H. McTAVISH, C.P.A.
AUDITOR GENERAL

Independent Auditor's Report

February 23, 2001

Mr. Mark A. Murray
State Treasurer
State of Michigan

Dear Mr. Murray:

We have audited the accompanying schedule of State Treasurer's Common Cash - assets and equities, schedule of investment portfolios of specific funds, and schedule of investment revenues as of and for the fiscal years ended September 30, 2000 and September 30, 1999. These financial schedules are the responsibility of the Department of Treasury's management. Our responsibility is to express an opinion on these financial schedules based on our audit. We did not audit the financial statements of the State Employees' Deferred Compensation Fund I (457), the State Employees' Deferred Compensation Fund II (401(k)), or the State Employees' Defined Contribution Retirement Fund. For the fiscal year ended September 30, 1999, those financial statements reflect total investments constituting 6.1% of the investments of the specific funds (Schedule 2) and total investment revenues constituting 6.4% of the investment revenues of all funds (Schedule 3). Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinion, insofar as it relates to the amounts included for these funds, is based solely upon the reports of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial schedules are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial schedules. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial schedule presentation. We believe that our audit and the reports of other auditors provide a reasonable basis for our opinion.

As described in Note 1b, the accompanying financial schedules include only the schedule of State Treasurer's Common Cash - assets and equities, presented on the

Mr. Mark A. Murray
State Treasurer
State of Michigan
Page 2

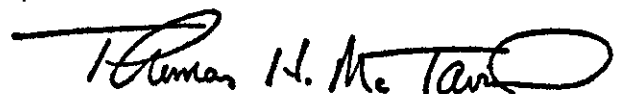

cash basis of accounting, and the schedule of investment portfolios of specific funds and the schedule of investment revenues, presented on the accrual basis of accounting. Accordingly, these financial schedules are not intended to constitute a complete financial presentation of the Department of Treasury.

In our opinion, based on our audit and the reports of other auditors, the financial schedules referred to in the first paragraph present fairly, in all material respects, the State Treasurer's Common Cash - assets and equities, the investment portfolios of specific funds, and the investment revenues as of and for the fiscal years ended September 30, 2000 and September 30, 1999 on the basis of accounting described in Note 1b.

In accordance with *Government Auditing Standards*, we have also issued a report dated February 23, 2001 on our tests of the Department of Treasury's compliance with certain provisions of laws, regulations, contracts, and grants and on our consideration of its internal control over financial reporting. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

The supplemental tables and statistical data, listed in the foregoing table of contents, were not audited by us and, accordingly, we express no opinion on them.

Sincerely,

A handwritten signature in black ink, appearing to read "Thomas H. McTavish", with a large, stylized loop at the end.

Thomas H. McTavish, C.P.A.
Auditor General

The accompanying notes are an integral part of the financial schedules.

Notes to Financial Schedules

Note 1: Significant Accounting Policies

a. Report Presentation

The accompanying financial schedules report the assets and equities of the State Treasurer's common cash (Schedule 1), investment portfolios of specific funds (Schedule 2), and investment revenues of the common cash and specific funds (Schedule 3).

The State Treasurer's common cash and specific funds are accounted for in various funds of the State of Michigan and reported in the *State of Michigan Comprehensive Annual Financial Report*.

The *State of Michigan Comprehensive Annual Financial Report* provides more extensive general disclosures regarding the State Treasurer's common cash and deposits and investments. These disclosures provide information regarding market values and risk levels of the deposits and investments.

Common Cash Pool

The State Treasurer, under the authority provided by state statute, manages the state's common cash pool. The pooling of cash allows the State Treasurer to invest money not needed to pay immediate obligations so that investment earnings on available cash are maximized. Pool investments are not segregated by fund; rather, each contributing fund's balance is treated as equity in the common cash pool.

Investments

The State Treasurer, under authority provided by state statutes, manages most investments for the State of Michigan.

Short-Term Investments: This category includes each of the listed fund's individually held short-term investments by classification, the fund's equity in the State Treasurer's common cash pool, and receivables and payables pertaining to security trades not yet settled at fiscal year-end.

Alternative Investments: These investments consist of limited partnerships, preferred stock, common stock, corporate bonds and notes, and convertible bonds.

International Equities (Derivatives): These investments are swap agreements.

The State Treasurer does not employ the use of derivatives in the investment of the State Treasurer's common cash pool or the investment of trust funds other than the pension trust funds.

Derivatives are financial instruments whose value is derived from, or based on, an underlying security, asset, reference rate or index. The State Treasurer uses derivatives for a small amount of the pension trust fund portfolios, primarily to provide additional diversification. However, derivatives are not used for speculation and they are not used to leverage the investment portfolios. Less than 7 percent of the total pension trust funds portfolio has been invested from time to time in futures contracts and swap agreements. Swap agreements, which are tied to stock market indices in twenty foreign countries, represent the largest category of derivatives used and total approximately 6.1 percent of the total portfolio.

b. Basis of Accounting

Schedule 1, *State Treasurer's Common Cash - Assets and Equities*, is presented on the cash basis of accounting. (*The State of Michigan Comprehensive Annual Financial Report's* disclosure regarding the State Treasurer's common cash includes \$28.9 million in interest receivable, because it is presented on the modified accrual basis of accounting.) Schedule 2, *Investment Portfolios of Specific Funds*, and Schedule 3, *Investment Revenues*, are reported on the accrual basis of accounting.

c. Valuations of Investments

Schedule 1

All investments are reported at cost.

Demand deposits represent the account balance reported on bank statements and include deposits which are in the process of being collected through the banking system.

The market value of prime commercial paper at September 30, 2000 and 1999 was \$5,219.4 and \$3,924.4 million, respectively.

Schedule 2

Methods used to value investments:

All investments are reported at fair value, except for short-term investments, which are reported at cost. Securities traded on a national exchange are valued at last reported sales price. The fair value of real estate investments is based on independent appraisals. Investments that do not have an established market are reported at estimated fair value.

d. Securities Lending Transactions

Under the authority of Act No. 314 of the Public Acts of 1965, the state lends securities to broker-dealers and other entities for collateral that will be returned for the same securities in the future. One of the state's custodial banks manages the securities lending program and receives securities as collateral. The custodian is not liable for any losses unless there is negligence or willful misconduct on its part. The collateral securities cannot be pledged or sold by the state and the state receives collateral in the amount of 102 percent of the market value of the securities lent. The types of securities lent are government securities, corporate bonds and equities, and the collateral received is cash, cash equivalents, and U.S. Treasury securities. There is no restriction on the amount of securities lent. Because the loans were terminable at will, their duration did not generally match the duration of the investments made with cash collateral. At September 30, 2000 the state had no outstanding credit risk. The market value of the securities lent at September 30, 2000 and 1999 was \$1,479.3 and \$2,061.2 million respectively.

Note 2: Change in Reporting of Funds

Effective for fiscal year ended September 30, 1999:

The Clean MI Initiative Bond Fund - Environment Projects and Bankrupt Self-Insured Corporations' Workers' Disability Fund #10 were added as new funds participating in the Common Cash Fund on Schedule 3.

Effective for fiscal year ended September 30, 2000:

The Clean MI Initiative Bond Fund - Local Projects, Michigan Merit Award Trust, Tobacco Settlement Trust, Urban Land Assembly Loan Fund, and Clean Michigan Initiative Bond Fund - State Projects were added as new funds participating in the Common Cash Fund on Schedule 3. Municipal Employees' Retirement, Bankrupt Self-Insured Corporations' Workers' Disability Fund #4, Bankrupt Self-Insured Corporations' Workers' Disability Fund #7, and Bankrupt Self-Insured Corporations' Workers' Disability Fund #9 were removed from Schedule 3. State Employees Deferred Compensation Fund I (457), State Employees Deferred Compensation Fund II (401(k)), and State Employees Defined Contribution Fund were not reported for the FYE 2000 on Schedule 2 and 3 due to the transfer of these funds, within the State, to the Department of Management and Budget - Office of Retirement Systems.

Cash and Investments

The State Treasurer manages the State's cash so funds not needed to pay immediate obligations are invested to earn income. Investments include time certificates of deposit and prime commercial paper as detailed in Schedule 1, *State Treasurer's Common Cash - Assets and Equities*.

Statutes also allow the State Treasurer to loan funds from the common cash pool to financially troubled municipalities in Michigan and to make common cash available to Michigan farmers experiencing financial stress.

The common cash fund pools the cash balances of certain State funds until paid as provided by law. Manageable common cash includes the following funds:

- General
- School Aid
- Budget Stabilization
- Special Revenue and Enterprise
- Internal Service
- Trust and Agency

The State Treasurer is authorized to transfer cash on hand and on deposit among these funds to best manage the available cash, maximize short-term investment earnings and ensure that State obligations are paid when due.

(a) Deposits represent the account balance reported on bank statements and include deposits which are in the process of being collected through the banking system. Deposits are rounded to the nearest thousand and are secured by \$366 million of collateral.

Bonds and Notes

The Michigan Constitution limits State general obligation debt to (1) short-term debt for State operating purposes, (2) short- and long-term debt for the purpose of making loans to school districts, and (3) long-term debt for voter-approved purposes.

Short-term debt for operating purposes is limited to an amount not in excess of 15 percent of undedicated revenues received during the preceding fiscal year. Under the Michigan Constitution as implemented by statutory provisions, such debt must be authorized by the State Administrative Board and issued only to meet obligations incurred pursuant to appropriation and must be repaid during the fiscal year in which it was incurred. Such debt does not require voter approval.

The amount of debt incurred by the State for the purpose of making loans to school districts is recommended by the State Treasurer, who certifies the amounts necessary for loans to school districts for the ensuing two calendar years. The bonds may be issued in whatever amount is required without voter approval. All other general obligation bonds issued by the State must be approved as to amount, purpose, and method of payment by a two-thirds vote of each house of the Legislature and by a majority vote of the public at a general election.

There is no limitation as to number or size of such general obligation issues.

General Obligation Debt

All current general obligation bond and note issues are presented in Table 6, *General Obligation Debt, Bond and Note Payments*, below. During fiscal 2000, the State issued \$96.9 million of Clean Michigan Initiative long-term debt and \$44.5 million in School Bond Loan Program short-term debt.

Special Authority Revenue Bond Debt

Certain governmental authorities issue revenue bonds for construction projects and to acquire or build facilities for the State or its institutions of higher learning. These bonds, as shown in Table 7, *Special Authority Revenue Bond Debt*, are obligations of the individual authorities and are not direct general obligations of the State.

Special Revenue Debt

The State periodically issues long-term bonds for specific purposes, as presented in Table 11, *Special Revenue Debt, Bond and Note Payments*, on page 24. These issues are not supported by the State's general credit, and their financing comes strictly from the designated revenue sources.

*Interest payments do not include premium.

- (a) Article Nine of the Constitution of the State of Michigan provides that the State may borrow from time to time such amounts as shall be required for the purpose of making loans to school districts. General Obligation debt is issued as needed.
- (b) P.A. 328 of 1988 provided for the issuance of \$660 million General Obligation Bonds, of which \$173.4 million in authorization remains.
- (c) \$23.2 million was advance refunded in June 1995 through General Obligation Bonds, Series 1995. As of September 30, 2000, \$20.7 million of principal has been paid out leaving an escrow principal liability of \$2.5 million. Interest paid for fiscal year 2000 was \$3.2 million.
- (d) \$43.8 million was advance refunded in June 1995 through General Obligation Bonds, Series 1995. As of September 30, 2000, no principal was paid out leaving an escrow principal liability of \$43.8 million. Interest paid for fiscal year 2000 was \$2.7 million.
- (e) P.A. 329 of 1988 provided for the issuance of \$140 million General Obligation Bonds, all of which have been issued.
- (f) P.A. 284 of 1998 and P.A. 451 of 1994, as amended, provided for the issuance of \$675 million General Obligation Bonds, of which \$578 million in authorization remains.

* All or part of the principal amount not presented, and not represented in the totals due to the advance refunding of all or part of this obligation.

- (a) Information for this table is provided by each special Authority.
- (b) The new issues include \$241.2 million of new bond issues plus \$1.0 million of capital appreciation for the fiscal year.
- (c) Balance includes \$3,582.4 million in bonds and \$153.0 million in Hospital Equipment Loan Program notes (HELP). Balance does not include MSHFA obligations that have been advance refunded. In FY 2000, net escrow payment activity was \$311.5 million, leaving an escrowed principal liability as of September 30, 2000 of \$1,124.5 million.
- (d) Balance includes accreted value at year-end on outstanding Capital Appreciation Bonds. Balance does not include \$1,494.3 million in SBA obligations that have been advance refunded. In FY 2000, \$110.7 million in principal was paid out of escrow, leaving an escrowed principal liability as of September 30, 2000 of \$501.2 million. Also, outstanding principal balance does not include commercial paper notes issued by the Authority. As of September 30, 2000, \$348.1 million of commercial paper notes was outstanding.
- (e) Outstanding principal balance does not include notes issued under the Authority's tax-exempt commercial paper program during fiscal years 1995-2000. As of September 30, 2000, there are no notes outstanding.

Table 8

State Tax Collections

State taxes and fees totalling \$21,348,095,000 were collected during fiscal year 2000, which is an increase of 3.0 percent over the previous year.

During fiscal year 2000 a number of changes were enacted to tax rates including reducing individual income tax and single business tax rates.

Major tax collections for fiscal year 2000 and the previous four years are detailed in Table 12, *Taxes and Fees Collected on a Cash Basis*, below.

Table 13, *Michigan State Taxes*, identifies all Michigan taxes and gives administrative information about each.

(a) Home heating credits subsequently reimbursed by the Federal Government are as follows: FY 1996 \$4.5 million, FY 1997 \$5.4 million, FY 1998 \$6.2 million, FY 1999 \$6.2 million and FY 2000 \$8.1 million. Home heating drafts funded by the Federal Government are not included in the reported Tax Refunds and Tax Credits. Federally funded home heating drafts were \$24.6 million in FY 1996, \$34.6 million in FY 1997, \$33.9 million in FY 1998, \$31 million in FY 1999 and \$35.5 million in FY 2000. A transfer related to Temporary Assistance to Needy Families (TANF) reduced income tax refunds by \$27 million in FY 2000.

(b) Public Act 54 of 1993 replaced the Inheritance Tax for dates of death after September 30, 1993 with the Estate Tax

(c) Includes Circuit Court, Probate Court and District Court Fees, Unclaimed Personal Property, Commercial Forest Tax and Trailer Coach Parks Tax

Local Property Taxes

Local property taxes in Michigan are levied by local units of government - school districts, cities, counties, townships and villages. Each of Michigan's 83 counties then "equalizes" the local assessments.

Equalization ensures that similar properties in different areas are assessed equitably. Following county equalization, the State Tax Commission equalizes among counties.

Table 14 shows state, county and local equalized valuations for calendar year 1999 and the prior decade. This table also lists the total Taxable Valuation beginning with the 1994 tax year and lists the average tax rate (millage) for each year. Table 15 shows how property tax dollars are apportioned among the various taxing units.

Michigan taxpayers' local property tax burden is lessened substantially by an income tax credit for property taxes paid.

Table 14

Local Property Tax Valuation, Levies and Average Rates (In Millions of Dollars)

Calendar Year	Local Assessed Valuation	County Equalized Valuation	State Equalized Valuation	Taxable Valuation (a)	Total Taxes Levied	Average Rate (Mills) (b)	Homestead Average Rate (c)	Non-Homestead Average Rate
1999	\$ 260,964	\$ 261,002	\$ 261,002	\$ 228,096	\$ 8,933	39.16	31.40	49.76
1998	237,401	237,410	237,416	215,179	8,450	39.27	31.43	49.68
1997	216,682	216,745	216,745	202,616	7,952	39.25	31.36	49.63
1996	200,246	200,341	200,341	191,777	7,536	39.32	31.35	49.52
1995	186,262	186,388	186,395	185,530	7,081	38.88	31.00	48.79
1994	175,280	175,550	175,195	175,195 (a)	6,704	38.19	30.22	48.17
1993	167,651	167,877	167,731	---	9,501	56.64	---	---
1992	154,266	154,284	153,929	---	8,942	58.09	---	---
1991	150,687	150,858	150,665	---	8,639	57.34	---	---
1990	139,921	140,166	139,901	---	7,998	57.17	---	---
1989	128,649	128,813	128,754	---	7,391	57.40	---	---

(a) Beginning in 1994, property taxes have been levied against Taxable Value, not State Equalized Value.

(b) This is the Average Rate based on all classes of property.

(c) Homesteads include those properties which receive the "homestead" exemption, and those which receive the "qualified agricultural property" exemption.

Table 15

Distribution of Local Property Taxes (In Thousands of Dollars)

Taxing Unit	Taxes Levied		Percent of Increase
	1998	1999	
City	\$ 1,655,571	\$ 1,734,404	4.76%
County	1,356,051	1,432,072	5.61%
Township	454,170	481,799	6.08%
Village	65,753	70,715	7.55%
School	3,626,994	3,845,804	6.03%
State Education Tax	1,291,075	1,368,578	6.00%
Totals	<u>\$ 8,449,614</u> (a)	<u>\$ 8,933,372</u> (b)	

(a) \$469.6 million of the total property taxes levied in 1998 was refunded to taxpayers through the "circuit breaker" system of property tax credits against State income tax due or as a reimbursement if they exceed the income tax.

(b) \$483.9 million of the total property taxes levied in 1999 was refunded to taxpayers through the "circuit breaker" system of property tax credits against State income tax due or as a reimbursement if they exceed the income tax.
